

COMPANY PROFILE

Professional property care for homes and businesses

SPOTLESS SPACES. PEST-FREE PLACES.

Soweto and Greater Johannesburg | +27 60 340 4788 | www.edpest.co.za

A dependable partner for cleaner healthier spaces

EdPest Cleaning Services is a Johannesburg-based service business providing professional cleaning, selected pest-control treatments, upholstery care and basic garden maintenance. We serve households, offices, landlords, tenants, property managers and small businesses that need responsive service and clear quotations.

Registered company: EDPEST CLEANING SERVICES | Enterprise number: 2026/791944/07

Our mission

To deliver dependable, detailed and affordable property-care services that help clients enjoy cleaner, healthier and more comfortable spaces.

Our vision

To become a trusted multi-service cleaning and pest-control brand across Soweto and greater Johannesburg, known for consistent workmanship and professional customer care.

What guides our work

- Professional conduct and respectful customer service
- Attention to detail and care for client property
- Honest quotations based on the actual scope of work
- Safety-conscious product use and responsible work practices
- Reliable communication before, during and after each booking

Detailed cleaning shaped around the property

We assess the number of rooms, property condition, occupancy, access and required tasks before confirming the quotation. Kitchens and bathrooms receive separate attention because grease, soap residue and sanitation needs can require more labour.

Standard home cleaning	Routine surface cleaning, dusting, vacuuming, mopping and attention to agreed living areas.
Deep cleaning	More detailed attention to grease, grout, cupboards, appliances, bathrooms, skirting and hard-to-reach areas.
Move-in and move-out	Cleaning for empty or partly furnished properties before occupation, handover or tenant change.
Office and commercial	Once-off or scheduled cleaning for offices, shops and small commercial premises.
Recurring contracts	Flexible home or commercial arrangements from one to four service days per week, subject to assessment.

Inspection-led treatment for common pests

The treatment method depends on the pest, infestation level, affected rooms, previous treatment and whether children or pets are present. Customers receive preparation, re-entry and after-care instructions. Bee and wasp removal, termites and specialist structural pest work are not currently offered.

Cockroaches and ants	Targeted treatment of affected kitchens, bathrooms, living spaces and entry points.
Bed bugs and fleas	Assessment-based treatment priced according to affected rooms, furniture and severity.
Rodent control	Inspection, monitoring and control measures positioned according to activity and property conditions.
Crawling pests	Selected treatments for common household crawling pests after identification.
Cleaning and pest packages	Coordinated treatment and cleaning with safe sequencing agreed before the booking.

Professional care for upholstered furniture

Clear photographs are reviewed before booking so that we can confirm the item size, fabric, colour, condition and likely treatment requirements. Delicate materials, leather and heavily soiled items may require a separate quotation.

Sofas and L-shaped couches	Fabric seating assessed by size, construction, colour and condition.
Dining and office chairs	Individual or grouped cleaning for fabric dining chairs, office chairs and armchairs.
Mattresses and bed bases	Single, double, queen and king sizes, including mattress-and-base packages.
Headboards	Fabric headboards assessed by size, material and level of soiling.
Material assessment	White or cream fabric, velvet, delicate fabric, leather, pet hair and heavy soiling are confirmed before pricing.

Fitted-carpet extraction is not currently offered. Stain reduction depends on the substance, fabric and how long the mark has been present; complete stain removal cannot be guaranteed.

Practical basic garden maintenance

Our basic garden service covers grass cutting, edging, weeding, light trimming, sweeping and general clean-ups for small to medium residential and business properties. Heavy landscaping, construction, stonework and specialist tree work are excluded.

How every booking works

01 Enquiry Share the service, area, property details and clear photographs.	02 Assessment We confirm scope remotely or arrange a site visit when necessary.
03 Quotation You receive the confirmed work and price before service begins.	04 Service The team completes the approved work using appropriate equipment.
05 Quality check The result is reviewed and immediate concerns are recorded.	06 Follow-up We provide relevant after-care guidance and invite honest feedback.

Mobile teams across Soweto and greater Johannesburg

Hands-on leadership and accountable service

EdPest is led by a hands-on management team focused on building a dependable service company with clear systems, accountable teams and strong customer relationships.

Ndangano Edwin Ramatsitsi

Founder and Managing Director

Strategic direction, service development, client engagement and quality oversight.

Yanelisa Dindela-Ramatsitsi

Co-founder and Operations Director

Operational coordination, service standards, customer care and consistent delivery.

Leadership commitment

The directors are committed to growing EdPest through reliable service, practical training, responsible business practices and long-term relationships with households, property professionals and organisations across Johannesburg.

One reliable point of contact for property care

- Multiple cleaning, pest-control, upholstery and garden services available through one team.
- Detailed quotation questions reduce misunderstandings before arrival.
- Flexible once-off, recurring and combined service options.
- Clear service boundaries and honest confirmation of what we can perform.
- Local knowledge of Soweto and greater Johannesburg service areas.
- Customer feedback supports continuous improvement and accountable delivery.

What customers say

Customers have described the EdPest team as professional, efficient, detail-oriented and affordable. Reviews have highlighted spotless results, attention to overlooked areas and effective support with common pest problems. Current public ratings and full review text can be viewed on the EdPest Google Business Profile.

Ideal household clients

Busy families, homeowners and tenants needing dependable once-off or recurring support.

Ideal business clients

Offices, shops, landlords, property managers and organisations requiring defined service quotations.

Tell us what needs attention

Send your name, area, required service and clear photographs on WhatsApp. For cleaning, include room counts and property condition. For upholstery, include item size, fabric, colour and condition. For pest control, identify the pest, affected rooms and infestation level.
